Terms of Use

These data are distributed under the following terms of use. By continuing past this page, you signify your agreement to comply with the requirements as stated below:

Privacy of Research Subjects

Any intentional identification of a research subject (whether an individual or an organization) or unauthorized disclosure of his or her confidential information violates the promise of confidentiality given to the providers of the information. Disclosure of confidential information may also be punishable under federal law. Therefore, users of data agree:

- To use these datasets solely for research or statistical purposes and not for re-identification of specific research subjects.
- To make no use of the identity of any research subject discovered inadvertently and to report any such discovery to CBHSQ and SAMHDA (samhda-support@samhsa.hhs.gov)

Citing Data

You agree to reference the recommended bibliographic citation in any of your publications that use SAMHDA data. Authors of publications that use SAMHDA data are required to send citations of their published works for inclusion in a database of related publications.

Disclaimer

You acknowledge that SAMHSA will bear no responsibility for your use of the data or for your interpretations or inferences based upon such uses.

Violations

If CBHSQ determines that this terms of use agreement has been violated, then possible sanctions could include:

- Report of the violation to the Research Integrity Officer, Institutional Review Board, or Human Subjects Review Committee of the user's institution. A range of sanctions are available to institutions including revocation of tenure and termination.
- If the confidentiality of human subjects has been violated, then report of the violation may be made to the Federal Office for Human Research Protections. This may result in an investigation of the user's institution, which can result in institution-wide sanctions including the suspension of all research grants.
- Report of the violation of federal law to the United States Attorney General for possible prosecution.
- Court awarded payments of damages to any individual(s)/organization(s) harmed by the breach of confidential data.

Promise of confidentiality

A promise to a respondent or research participant that the information the respondent provides will not be disseminated in identifiable form without the permission of the respondent; that the fact that the respondent participated in the study will not be disclosed; and that disseminated information will include no linkages to the identity of the respondent. Such a promise encompasses traditional notions of both confidentiality and anonymity. In most cases, federal law protects the confidentiality of the respondent's identity as referenced in the Promise of Confidentiality. Under this condition, names and other identifying information regarding respondents would be confidential.

Research subject

A person or organization that participates in a research study. A research subject may also be called a respondent. A respondent is generally a survey respondent or informant, experimental or observational subject, focus group participant, or any other person providing information to a study.

_____, 2013

Dear Resident:

To better serve all people across the nation, the United States Public Health Service (USPHS) is conducting a national study on health-related issues. Your address was randomly chosen along with more than 200,000 others. Research Triangle Institute (RTI) is under contract to carry out this study for the USPHS. Soon, an RTI interviewer will be in your neighborhood to give you more information.

When the interviewer arrives, please ask to see his or her personal identification card. An example of the ID card is shown below. The interviewer will ask you a few questions, and then may ask one or two members of your household to complete an interview. It is possible that no one from your household will be chosen to be interviewed. You may choose not to take part in this study, but no one else can take your place. **Every person who is chosen and completes the interview will receive \$30 in cash.**

All the information collected is confidential and will be used only for statistical purposes. This is assured by federal law. This letter is addressed to "Resident" because your address was selected, and we do not know your name. Feel free to ask the interviewer any questions you have about the study.

Your help is very important to this study's success. Thank you for your cooperation.

Sincerely,

National Study Director,

Study Description

Your address is one of several in this area randomly chosen for the 2013 National Survey on Drug Use and Health. This study, sponsored by the United States Public Health Service, collects information for research and program planning by asking about:

- tobacco, alcohol, and drug use or non-use,
- knowledge and attitudes about drugs,
- mental health, and
- other health issues.

You cannot be identified through any information you give us. Your name and address will never be connected to your answers. Also, federal law requires us to keep all of your answers confidential. Any data that you provide will only be used by authorized personnel for statistical purposes according to the Confidential Information Protection and Statistical Efficiency Act of 2002.

The screening questions take just a few minutes. If anyone is chosen, the interview will take about an hour. You can refuse to answer any questions, and you can quit at any time. **Each person who is chosen and completes the interview will receive \$30 in cash.**

If you have questions about the study, call the Project Representative at 1-800-848-4079. If you have questions about your rights as a study participant, call RTI's Office of Research Protection at (a toll-free number). You can also visit our project website: <http://nsduhweb.rti.org/> for more information.

Thank you for your cooperation and time.

Your confidentiality is protected by the Confidential Information Protection and Statistical Efficiency Act of 2002 (CIPSEA, PL 107-347). Any project staff or authorized data user who violates CIPSEA may be subject to a jail term of up to 5 years, a fine of up to \$250,000, or both.

INTRODUCTION AND INFORMED CONSENT FOR INTERVIEW RESPONDENTS AGE 18+

IF INTERVIEW RESPONDENT IS NOT SCREENING RESPONDENT,
INTRODUCE YOURSELF AND STUDY AS NECESSARY: Hello, I'm _____,
and I'm working on a nationwide study sponsored by the U.S. Public Health
Service. You should have received a letter about this study. (SHOW LEAD
LETTER, IF NECESSARY.)

READ THE BOXED INFORMATION BELOW BEFORE STARTING EVERY INTERVIEW

This year, we are interviewing about 70,000 people across the nation. You have been randomly chosen to take part. You will represent over 4,500 other people who are similar to you. You may choose not to take part in this study, but no one else can take your place. We will give you \$30 when you finish the interview.

GIVE STUDY DESCRIPTION TO R IF YOU HAVE NOT ALREADY DONE SO.

This study asks about tobacco, alcohol, and drug use or non-use, knowledge and attitudes about drugs, mental health, and other health issues. It takes about an hour. You will answer most of the questions on the computer, so I will not see your answers. We are only interested in the combined responses from all 70,000 people, not just one person's answers. This is why we do not ask for your name and we keep your answers separate from your address. RTI may contact you by phone or mail to ask a few questions about the quality of my work. This is why we ask for your phone number and mailing address at the end of the interview.

While the interview has some personal questions, federal law keeps your answers private. We hope that protecting your privacy will help you to give accurate answers. You can quit the interview at any time and you can refuse to answer any questions.

If it is all right with you, let's get started.

(Can we find a private place to complete the interview?)

INTRODUCTION AND INFORMED CONSENT FOR INTERVIEW RESPONDENTS AGE 12-17

**FIRST, READ THE PARENTAL PERMISSION SCRIPT BELOW AND
OBTAIN PERMISSION FROM THE PARENT**

Your (AGE) year-old child has been selected to be in this study. Your child's participation is voluntary. This interview asks about tobacco, alcohol, and drug use or non-use, knowledge and attitudes about drugs, mental health, and other health related issues. All of your child's answers will be confidential and used only for statistical purposes. Since your child will answer most of the questions on the computer, I will never see the answers, and you are not allowed to see them either. If it is all right with you, we'll get started.

(Can we find a private place to complete the interview?)

**THEN, READ THE BOXED INFORMATION BELOW BEFORE STARTING EVERY
INTERVIEW WITH A 12-17 YEAR OLD**

This year, we are interviewing about 70,000 people across the nation. You have been randomly chosen to take part. You will represent over 1,000 young people in this country who are similar to you. You may choose not to take part in this study, but no one else can take your place. We will give you \$30 when you finish the interview.

2013 National Survey on Drug Use and Health

Summary of the Questionnaire

You have asked to know more about the *National Survey on Drug Use and Health* and the types of questions the interviewer will ask. Below is a summary of each section of the questionnaire for you to examine. Keep in mind that not everyone will see every question—the questions depend on the participant's own experiences. Furthermore, participants can always refuse to answer any questions during the interview.

Demographics

This section, administered by the interviewer, consists of questions about the participant such as his/her date of birth, race, educational background, and health status.

Sample Questions:

- ▶ What is the highest grade or year of school you have **completed**?
- ▶ Would you say your health in general is excellent, very good, good, fair, or poor?

Computer Practice Session

In this section, the interviewer shows the participant how to use the laptop computer and lets him/her practice using a short practice session.

Cigarettes, Alcohol and Illicit Drugs

For most of the rest of the interview, the participant answers questions by listening to the questions over the headphones and/or reading the questions on the computer screen, and then entering responses using the computer's keyboard. The participant answers these questions in private, although the interviewer is available to help with any problems using the computer. During this part of the interview, only the participant can hear and see the questions and see his/her responses.

Tobacco Products and Alcohol

These sections include questions about whether and how often participants have used cigarettes, chewing tobacco, snuff, cigars, pipe tobacco, and alcoholic beverages such as beer, wine, or liquor.

Sample Questions:

- ▶ Have you **ever** smoked part or all of a cigarette?
- ▶ How old were you the **first time** you used chewing tobacco?
- ▶ What is your **best estimate** of the number of days you drank alcohol during the past 30 days?

Illicit Drugs

The next sections ask about the participant's use or non-use of marijuana, heroin, cocaine, hallucinogens, and inhalants; and prescription pain killers, tranquilizers, stimulants, and sedatives when taken only for their effect. Questions about drug dependence and drug treatment are also included in these sections.

Sample Questions:

- ▶ Have you **ever**, even once, used marijuana or hashish?
- ▶ How much do people risk harming themselves physically and in other ways when they use **cocaine once a month**?

Adult Social Environment and Mental Health

Participants aged 18 and older receive questions about their social experiences such as: how many times they have moved, their opinions about drug use, and in some cases, their experiences as a parent. Mental health questions cover such topics as depression and treatment for mental health problems.

Sample Questions:

- ▶ How do you feel about **adults** trying marijuana or hashish once or twice?
- ▶ During the past 12 months, was there any time when you **needed** mental health treatment or counseling for yourself but **didn't get it**?
- ▶ Have you ever in your life had a period of time lasting several days or longer when **most of the day** you felt **sad, empty, or depressed**?

Youth Experiences and Mental Health

Youth aged 12-17 participating in the survey are also asked questions about their social experiences such as: perceptions about the risks of using certain drugs; whether getting drugs is difficult or easy; feelings about school and peers; and involvement in clubs, sports, and other extracurricular activities. The mental health questions cover such topics as depression and treatment for mental health problems.

Sample Questions:

- ▶ **During the past 12 months**, in how many different kinds of school-based activities, such as team sports, cheerleading, choir, band, student government, or clubs, have you participated?
- ▶ Have you ever in your life had a period of time lasting several days or longer when **most of the day** you felt **sad, empty, or depressed**?
- ▶ During the past 12 months, did you receive treatment or counseling from a **private therapist, psychologist, psychiatrist, social worker, or counselor** for emotional or behavioral problems that were **not** caused by alcohol or drugs?

Health Care and Demographic Information

In this section, the laptop is handed back to the interviewer, who asks questions about education, health insurance, and family income information to help in analyzing the data. If necessary, a knowledgeable adult in the household may be asked to help participants answer some of these questions.

The answers to these questions increase the government's knowledge about health care, especially as it may relate to drug use or treatment. This information helps in planning health care services and finding ways to lower the costs of care.

Sample Questions:

- ▶ How many hours did you work **last week** at all jobs or businesses?
- ▶ **Before taxes and other deductions**, was the total **combined family** income during 2012 more or less than 20,000 dollars?
- ▶ Are you currently covered by private health insurance?

Please feel free to ask the interviewer if you have any other questions about the questionnaire.

Thank you for your cooperation and help!
