2004 NATIONAL SURVEY ON DRUG USE AND HEALTH
CAI INSTRUMENT REVISIONS

General/Misc.
• Wording for the following components of the 2004 CAI Instrument was revised to be easier for respondents to read and understand:
  ➢ All probe-specify and other-specify questions
  ➢ All refusal conversion questions
  ➢ Calendar screen
  ➢ Beginning ACASI Section
  ➢ Computer Tutorial

Module Specific

Introduction
• Updated CAI instrument version, OMB Number and OMB expiration date.

Core Demographics
• Two response categories were added to QD04 (Which Hispanic group best describes you). ‘Dominican (from Dominican Republic)’ and ‘Spanish (from Spain)’ were included as pre-coded categories since they have been the largest of the specified Hispanic other groups since 1999.

Computer Tutorial
• The order of BACKUP and DOAGAIN was switched so that BACKUP now appears first.

Tobacco
• Text in the questions regarding menthol cigarette use (CGMENTH1 and CIGMENTH2) was changed from “During the past 30 days, did you smoke [fill brand] menthol or regular cigarettes most often?” to “Were the [fill brand] cigarettes you smoked during the past 30 days menthol?” Response options were changed from ‘Menthol’ and ‘Regular’ to ‘Yes’ and ‘No’. This change was made to decrease respondents reporting that they smoked menthol cigarettes for brands that do not make a menthol cigarette.

Pain Relievers
• At the request of ONDCP, new questions on Oxycontin use were added to the questionnaire. A set of questions was added at the end of the Pain Relievers module to capture age at first use, month and year of first use for recent initiates, recency, and frequency of use in the past 12 months for Oxycontin (PR14-PR23).
• Logic in PR06 (Age the respondent first used any pain reliever without a prescription) was revised to reflect the addition of the new Oxycontin age of first use question. Respondents who report only Oxycontin use in the Pain Relievers module will not receive PR06. They will be routed to PR14 (Age the respondent first used Oxycontin without a prescription).

• Calculation of an overall pain reliever recency variable (PRREC) was added to account for the addition of the new Oxycontin recency question.

**Deleted Module:**
*Specialty Cigarettes*

• This module contained questions on bidis and clove cigarettes (SPCIG01 through SPCIG08).

**Added New Module:**
*Blunts*

• This module is administered to all respondents, and is designed to capture information on lifetime and recency of blunt use, and frequency of blunt use within the past 30 days. The module also includes consistency check questions if the respondent reports earlier in the marijuana module that they had never used marijuana or had not used it within the past 30 days. Additionally, the module includes a question asking cigar smokers if any of the cigars they smoked in the past 30 days contained no marijuana.

**Substance Dependence and Abuse**

• The calculation for CIG30DAY (respondent smoked a cigarette within the past 30 days) was changed to reflect the deletion of the Specialty Cigarettes module. CIG30DAY no longer includes SPCIG02 and SPCIG06 in its calculation.

• The calculation of the PAI12MON variable (respondent used a pain reliever without a prescription in the past 12 months) was changed to reflect the addition of the Oxycontin questions to the Pain Relievers module. PAI12MON now includes PRREC (recency of any pain reliever use) and OXYREC (recency of Oxycontin use) in its calculation.

• Questions on how much adult respondents paid for cigarettes were deleted (DRCIG18 through DRCIG20).

**Prior Substance Use**

• The Prior Marijuana and Cigarette Use module was re-titled Prior Substance Use and expanded to include age of last use items - similar to the existing LU02 and LU03 variables - for each substance for which the respondent reported last use as more than 30 days ago (LU02a-LU02d, LU03a-LU03d, LU04a-LU21d). For those individuals who last used more than 30 days ago, but who report their current age or current age – 1 as the age when they last used a substance, month and year of last use is also collected. This is the same procedure used for collecting month and year of first use.
• For respondents who report the same age of first use for alcohol, cigarettes or marijuana, questions were added to resolve the sequence in which first use occurred. The items (LU22-LU26) were adapted from the National Survey of Parents and Youth.

**Drug Treatment**

• Questions were added to this module to capture age of first treatment for alcohol use and for drug use (TX45-TX51a).

**Adult Mental Health Service Utilization**

• Three questions were added to the end of this module (ADMT29a-ADMT30), asking whether the respondent received any alternative types of mental health treatment, counseling or support in the past 12 months, and the source of such treatment. The third question refers to all types of mental health treatment received by the respondent during the past 12 months, and asks who initiated the treatment - the respondent or someone else.

**Youth Experiences**

• Items on youth access to and price paid for cigarettes (YE26-YE40) were deleted. Also deleted from this module were the questions on blunts (YE41-YE44). The blunts questions that were removed from this module were used to formulate the new Blunts module.

**Serious Mental Illness**

• The sampling algorithm was changed for this module so that only 20% of the adult sample receives the entire module, and the remaining 80% will receive the six existing variables within the module that create the K-6 (DSNERV1, DSHOPE, DSFIDG, DSNOCHR, DSEFFORT, AND DSDOWN). Respondents who only get the K-6 will also get the new Adult Depression module, while those respondents who get the entire SMI module will not receive the new Adult Depression module.

**Added New Modules:**

**Adult Depression and Adolescent Depression**

• Depression modules for adults and adolescents were added. These questions are based on those used in Dr. Ron Kessler’s latest National Comorbidity Survey (http://www.hcp.med.harvard.edu/ncs/). They are designed to produce lifetime and 12-month prevalence estimates of major depressive episode (MDE), severity of 12-month MDE, age at first MDE, lifetime number of episodes, current and 12-month treatment, and the respondent’s perception of treatment effectiveness. The module used for adults is based on Dr. Kessler’s NCS-R, and the adolescent module is based on the NCS-A.
Back-End Demographics

- For respondent who indicate they were not born in the United States, QD16 (About how long have you lived in the United States) has been replaced with QD16a-QD16c. These new questions specifically ask each non-U.S. born respondent if they have lived in the United States for at least one year. If they have, they are asked how many years altogether they have lived in the United States. If not, they are asked how many months they have lived in the U.S.
- For Question QD18c and QD18d (lowest and highest grade of school currently attending), the phrase OR LOWER was added to the end of response option 1 to include those schools with pre-kindergarten classes.
- In the household roster, for MRELATON and FRELATON (Household member’s relationship to the respondent), the phrase (LIVING TOGETHER AS THOUGH MARRIED) was dropped from response option 6 (UNMARRIED PARTNER).
- For MBRSELECT (Was this household member also selected to be interviewed), OR DK/REF was added to the logic for PERAGEYR so that families where the parents’ age is unknown can also receive this question.
- Edit checks within the household roster were added to help get the highest quality data in the field. The FI receives an error message if:
  - A respondent lists having more than one spouse and/or unmarried partner(s).
  - The respondent is 30 years old or younger, and reports living with a grandchild.
  - The respondent is 60 years old or older, and reports living with a grandparent.

The FI is instructed to either fix the incorrect information, or explain the response.

- Updated state Medicaid/Medicare, TANF and CHIIP program names.
- Updated program names for the CHAMPUS and CHAMPVA acronyms.
- For questions asking about the respondent’s total personal income (QI21b) and total family income (QI23b), response option 28 was capped at $99,999 and response option 29 ($100,000 OR MORE) was added.
- For the question at the end of the interview in which the respondent introduces the Interview Payment Receipt to the respondent (INCENT01), wording was added to reference the new hotline numbers offered respondents at the bottom of the Interview Payment Receipt.

Throughout the rest of this interview, the computer will ask you questions about three time periods, the past 30 days, the past 12 months, and your lifetime. To help you remember the first two time periods, let’s mark this calendar with the beginning dates for each one of them.

SHOW CALENDAR TO RESPONDENT.

Now let’s think about the past 30 days. According to the calendar [DATEFILL] was 30 days ago, so I will write [DATEFILL] here on the calendar. I’ll call that your 30-day reference date.

WRITE 30-DAY REFERENCE DATE ON CALENDAR AND CIRCLE DAY; UNDERLINE ENTIRE 30-DAY PERIOD.

A number of questions will ask about the past 12 months, that is since this date last year. Let’s look at the calendar and find that date — [DATEFILL]. I’ll call that your 12-month reference date.

WRITE 12 MONTH REFERENCE DATE ON CALENDAR, AND CIRCLE DAY ON CALENDAR.

Please use this calendar as we go through the interview to help you remember when different things happened. I will remind you to think about your 30-day reference date and your 12-month reference date when I ask you questions.

PRESS [ENTER] TO CONTINUE.
Beginning ACASI Section

IntroAcasi1 You will do an important part of this interview on your own, using the computer and headphones. Before you start, we’ll go through a short practice session so you can learn how to use this computer. Let me quickly point out the keys you will use. The computerized practice session that follows will go through what each key does in greater detail.

MOVE COMPUTER SO RESPONDENT CAN USE IT AND POINT OUT THE FOLLOWING:

[POINT TO THE ROW OF FUNCTION KEYS] First, these are the function keys. The function keys and what they do are labeled for you.

[POINT TO F3] If you don’t know the answer to a question, press F3.

[POINT TO F4] If you don’t want to answer a question, press F4.

[POINT TO THE ROW OF NUMBER KEYS] These are the number keys

[POINT TO THE ENTER KEY] The Enter key is here,
[POINT TO THE SPACE BAR] the space bar is here,
[POINT TO THE BACKSPACE KEY] and the Backspace key is here

[POINT TO THE BOTTOM OF THE SCREEN] The answers that you enter will show up here at the bottom of the screen.

[POINT TO ON/OFF SWITCH] This button up here turns the machine on and off. Please do not press it! It will turn the machine off, and we’ll lose the interview.

[POINT TO TOUCHPAD] Also, please do not touch this pad. This will disable the interview.

PRESS [ENTER] TO CONTINUE.

IntroAcasi2 You can adjust the volume here

[Demonstrate volume adjustment on the headphone cord].

Please put on your headphones. When you are ready, let me know.

ONCE RESPONDENT HAS HEADPHONES ON, PRESS “1” AND [ENTER] SO R CAN BEGIN PRACTICE SESSION.

HeadPhone This screen will play while you adjust the volume in your headphones. When you have adjusted the volume to a level that is comfortable to you, press the large [ENTER] key on the right side of the keyboard to continue with the practice session. The [ENTER] key is the one with the ~ symbol on it.
Welcome to RTI’s self-interviewing system, which lets you control the interview and answer in complete privacy. In this system, you can read the questions on the computer screen and hear them read through the headphones.

First, you will learn how to use the system and complete some practice questions. You will learn how to enter answers and how to back-up if you make a mistake and want to change an answer.

Press the large [ENTER] key on the right side of the keyboard to move to the next screen. The [ENTER] key is the one with the ← symbol on it.

In this system you can read the questions on the computer screen and hear them read through the headphones. If you would like to just see the questions on the screen, you can turn off the voice. You will learn how to do this.

Press the large [ENTER] key on the right side of the keyboard to move to the next screen. The [ENTER] key is the one with the ← symbol on it.

You can lower the sound by adjusting the control on the cord of the headphones. Or, if you don't want to listen to the sound at all, you can press the [F7] key to turn the sound off. If you want to hear the questions read aloud, you can press the [F7] key again to turn the sound back on.

Press [ENTER] to continue.

You answer questions by putting in the number that is shown next to your answer. The numbers are located in the second row of the keyboard.

To answer a question, you first press the correct number and then press [ENTER]

Do you have a dog?

1 Yes
2 No

The last question was a Yes-No question. Other questions will have more answers to choose from, and you will pick your answer from a list.

What color are your eyes? Put in the number that best fits you and press the [ENTER] key.

1 Blue
2 Brown
3 Gray
4 Green
5 Some other color
DK/REF

Some questions will let you choose more than one answer. For these questions, you will use the space bar to separate the answers you type in. Practice this now.

What kinds of music do you listen to?

To select more than one kind of music from the list, press the space bar between each number you type. When you have finished, press the [ENTER] key to go to the next question.

1 Classical
2 Country
3 Hip Hop
4 Jazz
5 Latin American/Spanish
6 Other Folk/Ethnic
7 Pop/Rock
8 Soul/R&B
9 Techno
DK/REF
Other questions will ask you to type in a number instead of choosing a number from a list.

In the past 30 days, on how many days did you eat breakfast? Type in the number of days you ate breakfast and press [ENTER].

________________ [RANGE: 0 - 30]

If you hear your answer before the end of the list, you can put in your answer while the list is being read. Practice this now. Remember to press [ENTER].

When do you want to interrupt this list?

1 First answer
2 Second answer
3 Third answer
4 Fourth answer

If you want to change or see your answer to a previous question, you can back up using the [F9] key. Each time you press the [F9] key, the computer will go back one question.

Press [ENTER] to continue.

You can tell the computer to repeat a question by pressing [F10]. Try this now.

How many times did you listen to this screen?

1 I have listened to this screen more than once.
2 I have only listened to this screen one time

For some questions, the computer can only accept certain answers. For example, in the question below, the only numbers the computer will accept are 1 for YES or 2 for NO.

Do you have a cat?

1 Yes
2 No

At times the computer may ask you to think again about one of your answers. Other times, it may think two of your answers disagree. It will ask you to tell which one is correct and then fix the wrong one.

Also, at certain times the computer will tell you to ask your interviewer to show you some pictures. At that time, be sure to ask for these pictures.

Press [ENTER] to continue.

If you have any questions, ask your interviewer now. If not, press [ENTER] to begin.

**Inhalants**

**INHINTRO** These next questions are about liquids, sprays, and gases that people sniff or inhale to get high or to make them feel good.

We are not interested in times when you inhaled a substance accidentally — such as when painting, cleaning an oven, or filling a car with gasoline. The questions use the word ‘inhalant’ to include all the things listed below, as well as any other substances that people sniff or inhale for kicks or to get high. Take a moment to look at the substances listed below so you know what kinds of liquids, sprays, and gases these questions are about.

- Amyl nitrite, ‘poppers,’ locker room odorizers, or ‘rush’
- Correction fluid, degreaser, or cleaning fluid
- Gasoline or lighter fluid
- Glue, shoe polish, or toluene
- Halothane, ether, or other anesthetics
- Lacquer thinner, or other paint solvents
- Lighter gases, such as butane or propane
- Nitrous oxide or ‘whippets’
- Spray paints
- Other aerosol sprays

Now we have some questions about drugs that people are supposed to take only if they have a prescription from a doctor.

We are only interested in your use of a drug if:

• the drug was not prescribed for you, or
• you took the drug only for the experience or feeling it caused.

Press [ENTER] to continue.
Pain Relievers

INTROPR1 These questions are about the use of pain relievers. We are not interested in your use of “over-the-counter” pain relievers such as aspirin, Tylenol, or Advil that can be bought in drug stores or grocery stores without a doctor’s prescription.

Ask your interviewer to show you Card A.

Press [ENTER] to continue.

INTROPR2 Card A shows pictures of some different kinds of prescription pain relievers and lists the names of some others. These pictures show only pills, but we are interested in your use of any form of prescription pain relievers that were not prescribed for you or that you took only for the experience or feeling they caused.

Please look at Card A carefully as you answer the next questions.

Press [ENTER] to continue.

PR01 Please look at the pain relievers shown in Box 1 above the red line on Card A.

Have you ever, even once, used Darvocet, Darvon, or Tylenol with codeine that was not prescribed for you or that you took only for the experience or feeling it caused?

1 Yes
2 No

PR02 Please look at the pain relievers shown in Box 2.

Have you ever, even once, used Percocet, Percodan, or Tylox that was not prescribed for you or that you took only for the experience or feeling it caused?

1 Yes
2 No

PR03 Please look at the pain relievers shown in Box 3.

Have you ever, even once, used Vicodin, Lortab, or Lorcet that was not prescribed for you or that you took only for the experience or feeling it caused?

1 Yes
2 No

PR04 Please look at the pain relievers shown below the red line on Card A.

Have you ever, even once, used any of these pain relievers when they were not prescribed for you or that you took only for the experience or feeling they caused?

1 Yes
2 No

PR04a [IF PR04 = 1] Which of the pain relievers shown below the red line on Card A have you used when they were not prescribed for you or that you took only for the experience or feeling they caused?

To select more than one drug from the list, press the space bar between each number you type. When you have finished, press [ENTER].

4 Codeine
5 Demerol
6 Dilaudid
7 Fioricet
Have you ever, even once, used any other prescription pain reliever, besides the ones shown on Card A, when it was not prescribed for you or that you took only for the experience or feeling it caused?

1 Yes
2 No

Please type in the name of one of the other prescription pain relievers you have used other than the ones on Card A. If you’re not sure how to spell the name of the pain reliever you used, just make your best guess.

When you have finished, press the [ENTER] key to go to the next question. Remember, you do not need to type in the names of any prescription pain relievers you already reported.

Please type in the name of any other prescription pain reliever you have used when it was not prescribed for you or that you took only for the experience or feeling it caused. If you have not used any other prescription pain relievers, press the [ENTER] key to go to the next question.

Tranquilizers

INTROTR1 These next questions ask about the use of tranquilizers. Tranquilizers are usually prescribed to relax people, to calm people down, to relieve anxiety, or to relax muscle spasms. Some people call tranquilizers ‘nerve pills.’

Ask your interviewer to show you Card B.

Press [ENTER] to continue.

INTROTR2 Card B shows pictures of some different kinds of prescription tranquilizers. These pictures show only pills, but we are interested in your use of any form of prescription tranquilizers that were not prescribed for you or that you took only for the experience or feeling they caused.

Please look at Card B carefully as you answer the next questions.

Press [ENTER] to continue.

TR01 Please look at the tranquilizers shown in Box 1 above the red line on Card B.

INTROST1 These next questions ask about the use of drugs such as amphetamines that are known as stimulants, ‘uppers,’ or ‘speed.’ People sometimes take these drugs to lose weight, to stay awake, or for attention deficit disorders. We are not interested in the use of “over-the-counter” stimulants such as Dexatrim or No-Doz that can be bought in drug stores or grocery stores without a doctor’s prescription.

Ask your interviewer to show you Card C.

Press [ENTER] to continue.

INTROST2 Card C shows pictures of some different kinds of prescription stimulants and lists the names of some others. These pictures show only pills, but we are interested in your use of any form of prescription stimulants that were not prescribed for you or that you took only for the experience or feeling they caused.

Please look at Card C carefully as you answer the next questions.

Press [ENTER] to continue.

ST01 Please look at the stimulants shown in Box 1 above the red line on Card C.

Sedatives

INTROSV1  These next questions ask about the use of sedatives or barbiturates. These drugs are also called “downers” or “sleeping pills.” People take these drugs to help them relax or to help them sleep. We are not interested in the use of “over-the-counter” sedatives such as Sominex, Unisom, Nytol, or Benadryl that can be bought in drug stores or grocery stores without a doctor’s prescription.

Ask your interviewer to show you Card D.

Press [ENTER] to continue.

INTROSV2  Card D shows pictures of some different kinds of prescription sedatives and lists the names of some others. These pictures show only pills, but we are interested in your use of any prescription sedatives that were not prescribed for you, or that you took only for the experience or feeling they caused.

Please look at Card D carefully as you answer the next questions.

Press [ENTER] to continue.

SV01  Please look at the sedatives shown in Box 1 above the red line on Card D.

Have you ever, even once, used Methaqualone, Sopor, or Quaalude that was not prescribed for you or that you took only for the experience or feeling it caused?
