Terms of Use

These data are distributed under the following terms of use. By continuing past this page, you signify your agreement to comply with the requirements as stated below:

Privacy of Research Subjects

Any intentional identification of a research subject (whether an individual or an organization) or unauthorized disclosure of his or her confidential information violates the promise of confidentiality given to the providers of the information. Disclosure of confidential information may also be punishable under federal law. Therefore, users of data agree:

- To use these datasets solely for research or statistical purposes and not for re-identification of specific research subjects.
- To make no use of the identity of any research subject discovered inadvertently and to report any such discovery to CBHSQ and SAMHDA (samhda-support@samhsa.hhs.gov)

Citing Data

You agree to reference the recommended bibliographic citation in any of your publications that use SAMHDA data. Authors of publications that use SAMHDA data are required to send citations of their published works for inclusion in a database of related publications.

Disclaimer

You acknowledge that SAMHSA will bear no responsibility for your use of the data or for your interpretations or inferences based upon such uses.
Violations

If CBHSQ determines that this terms of use agreement has been violated, then possible sanctions could include:

- Report of the violation to the Research Integrity Officer, Institutional Review Board, or Human Subjects Review Committee of the user's institution. A range of sanctions are available to institutions including revocation of tenure and termination.
- If the confidentiality of human subjects has been violated, then report of the violation may be made to the Federal Office for Human Research Protections. This may result in an investigation of the user's institution, which can result in institution-wide sanctions including the suspension of all research grants.
- Court awarded payments of damages to any individual(s)/organization(s) harmed by the breach of confidential data.

Promise of confidentiality

A promise to a respondent or research participant that the information the respondent provides will not be disseminated in identifiable form without the permission of the respondent; that the fact that the respondent participated in the study will not be disclosed; and that disseminated information will include no linkages to the identity of the respondent. Such a promise encompasses traditional notions of both confidentiality and anonymity. In most cases, federal law protects the confidentiality of the respondent's identity as referenced in the Promise of Confidentiality. Under this condition, names and other identifying information regarding respondents would be confidential.

Research subject
A person or organization that participates in a research study. A research subject may also be called a respondent. A respondent is generally a survey respondent or informant, experimental or observational subject, focus group participant, or any other person providing information to a study.

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE
WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

2006 NATIONAL SURVEY ON DRUG USE AND HEALTH
CAI INSTRUMENT REVISIONS

General/Misc.

• The spelling of OxyContin was corrected throughout the 2006 questionnaire. It had been misspelled as “Oxycontin” in previous years.

Module Specific

Introduction

• The CAI instrument version and the OMB expiration date for the main study were updated.

Calendar

• A new instruction was added to the CALENDAR screen reminding the FI to give the calendar to the respondent. This is intended to increase the likelihood that respondents will receive and use it during the interview.

• The Calendar screen was split onto three separate screens (calendar, calendr2 and calendr3) to facilitate Calendar set-up for the interviewers.

ACASI Tutorial

• The ACASI Introduction screen was split onto three separate screens (IntroAcasi1, IntroAcasi3 and IntroAcasi4) to make it easier for interviewers to explain how to use the laptop to respondents.

Special Drugs

• For respondents who reported never having used Methamphetamine, Desoxyn or Methedrine in the core Stimulants module, and then reported some recency of methamphetamine use in SD17b, follow-up questions (SD17a1-SD17a2SP) were added to determine the reason for this inconsistency.

• Questions SD19 to SD30 were added to capture non-medical use of GHB, Adderall, Ambien, over-the-counter cough/cold medicines, Ketamine, DMT, AMT, Foxy (5-MeO-DIPT), and Salvia divinorum. The questions ask about lifetime use, recency of use, and for respondents reporting past month or past year use of cough/cold medicines just to get high, the names of cough/cold medicines used. These substances have been mentioned frequently in the core other-specify drug questions.

• Pictures of Adderall and Ambien were placed onscreen for items SD20 and SD21. These “electronic pillcards” were used in place of developing new hardcopy pillcards.
Special Topics

- The new response option "no penalty" was added to SP07, about the legal consequences of first-time marijuana possession in the respondent's State. This was added because Alaska assesses no penalty for first-time possession of an ounce or less of marijuana.

Prior Substance Use

- For respondents who report that they obtained pain relievers, tranquilizers, stimulants, sedatives or methamphetamine from a friend or relative for free, new follow-up questions (LU27a-LU36a) ask how the friend or relative originally obtained the drug. These items were added due to the large number of respondents in 2005 who reported obtaining these drugs from a friend or relative for free.

Drug Treatment

- The programming for TX43, about enrollment in any alcohol or drug treatment program on October 1 of the previous calendar year, was changed to use a filled calculation rather than a manual updating of the year. This was done to avoid the possibility that staff might mistakenly fail to update the item in future years’ surveys.
- TX52 and TX53 were added to ask whether the respondent has attended a self-help group in the past 12 months for help with alcohol or illicit drug use. These items are administered to respondents who have previously indicated that they used these substances but did not receive treatment through a self-help group. The items were added to assess whether the use of the word “treatment” in previous items, which is inconsistent with the language used in the self-help/recovery community, is leading to an underestimate of attendance at these types of meetings.

Psychological Distress

- This module name was changed from “Serious Mental Illness” to “Psychological Distress.”

Adolescent Depression

- The upper age range of items YD22a, YD22c, YD37a, and YD37c (age at first or most recent occurrence of depressive episode) was changed from 110 to 17. This was done to help prevent errors in reporting.

Added New Module: Consumption of Alcohol

- This module is administered to all respondents who reported in the core alcohol section that they ever had a drink of an alcoholic beverage. Questions asked of all
ages include the number of drinks consumed on the most recent occasion in the past 30 days, use of core drugs while drinking on the most recent drinking occasion, lifetime occurrence of binge drinking, and age of first binge drinking occasion. Respondents aged 12-20 are also asked the following questions about the most recent drinking occasion: whether they were alone or with others, where they drank, how and from whom they obtained the alcohol.

- Female respondents who report never having consumed 5 or more drinks on a given occasion (the current NSDUH definition of binge drinking) are asked a parallel set of items redefining binge drinking as 4 or more drinks. This will permit benchmarking of NSDUH data with data from federal surveys that use gender-specific binge drinking definitions.

- New variables were constructed indicating which drugs the respondent reports having used in the past 30 days, as well as a customized fill mentioning the name of the single substance type or “any of these drugs” used in that period. These fills are used in the questions about use of any other drug while drinking on the most recent drinking occasion.

**Back-End Demographics**

**Residence**

- The phrase “past 12 months” in item QD13 (how many times the respondent has moved) was bolded in order to make it more noticeable to the respondents and to better differentiate it from the earlier item which asked how often the respondent has moved in the past 5 years (SEN04 and YE04).

- Items QD13a-QD13c were added to determine state of residence one year ago and two years ago. These items will be used in analysis of state-level retrospective data on substance use, by allowing analysts to exclude respondents who did not live in the state in the year of interest.

- Items QD13d-QD13f were added to obtain information on displacement due to Hurricanes Katrina and Rita. Respondents who lived in the Gulf Coast states at the time the hurricanes hit will be questioned about relocation and length of time in temporary housing.

- The logic for items QD16a-QD16b (how long the respondent has lived in the United States) was modified to include responses to QD13a-c.

**Education**

- Items QD18a-QD18d (about the type of school the respondent attends and the lowest and highest grades at that school) and their associated error checks were deleted.

**Employment**

- An interviewer note was added to QD41 instructing FIs not to include days of planned vacation in the number of work days missed because the respondent did not want to be there.
• A showcard was created for item QD51 (consequences for a first-time positive drug test at work) to help respondents frame their answers, and all subsequent showcard number references were updated accordingly.

Roster
• In the household roster, an instruction was added to CHAGEMON (age in months of children under 2 years old) explaining that the interviewer should enter "1" for babies under one month old.
• The “family relationship fill” (used in the proxy and income items) for “unmarried partner” was changed to "partner” in order to simplify the question text for interviewers and reduce the possible perception of a social stigma on the part of the respondents.

Health Insurance and Income
• State Medicaid, CHIP and TANF program names were updated.
• Fills were added to all Health Insurance questions to tailor question wording toward sample and proxy respondents. These fills replace the text “[you/SAMPLE MEMBER]” which required interviewers to provide their own fill for each question.
• Wording for income questions were tailored to family size. Wording of some income questions was revised based on the use of a proxy or a self-responder.
• Interviewer notes for items QI07A and QI07B were expanded to inform interviewers that WIC and free/reduced school lunches are not included in the definition of food stamps.
• The interviewer notes for QI17, QI18A, and QI18B were expanded to clarify that respondents should not report WIC, free/reduced school lunches, or college financial aid as “other sources” of income.

Income Split Sample
• The sampling algorithm has been changed so that 50% of the Reliability Study sample (1500 respondents) and 1,000 respondents in the main study sample will receive a new set of income items (Sample B), and all other respondents will receive the current income items (Sample A). The purpose of this split sample is to determine whether comparable data on income can be obtained with fewer questions. While total personal income and total family income will still be asked of Sample B respondents, they will not be asked if each source of income was received by the sample person. All source of income items will be asked family-style.

The new set of questions (QI05N, QI03N, QI07N, QI09N, QI10N, QI12AN, QI12BN, INTERTINN and QI20N) asks if certain sources of income were received by anyone in the family, and asks specific questions about only five sources of income: wages from employment, Supplemental Security Income, food stamps, TANF, and non-cash welfare. Sample B respondents are then shown a list of the other possible
sources of income and asked to include these sources in their estimate of total personal and family income.

- The logic for screens HAND18A-QI23B was updated to include the split sample.

**Internet**

- Items QI25-QI26SP (Internet usage) were deleted and the wording of QI24 (number of telephones in household) was changed from “the next question” to “the last question.”

**Reliability Study**

- The domain for RRETURN was changed from all respondents to those who have completed the Time 2 reliability study interview.

- Respondent debriefing questions for the Time 2 reliability study interview (FOLLWINT to FOLLWEXT) were moved from after the THANKR screen to before the VERIFID screen. This change was made to make the Time 2 re-interview flow better.

- The variable VERIFID was changed to QCID to reflect the Verification form’s change of name to the Quality Control form. Additionally, wording was added to remind the interviewers that the QC ID they are to enter into the laptop is located in the upper right hand corner of the QC form (and that the hyphen must be included).

- The instructions for Time 1 reliability study interviews were moved from screen INCENT01 to new screen INCENT01A, and the instructions for Time 2 interviews were moved to new screen INCENT01B. This change was made to simplify instrument development and programming.

- For the Time 1 reliability study interview, wording for the recruitment screens was modified (RECRUIT1, RECRUIT2, THANKR2), and a screen was added (PARENT) to ask minor respondents to have their parent or guardian return to the room to get parental permission for the minor’s participation.

**Interviewer Debriefing**

- Debriefing items regarding the Time 2 reliability study interview questions/comments and strategies (T1DBF1S to T1DBF3S; T1DBFOUT to T2DBF03) were deleted.

- Items INCENT02-INCENT17 (respondent’s reaction to the incentive payment), FIDBF03-FIDBF04S (whether/how the interviewer assisted the respondent during the ACASI section), and FIDBF10 (how the laptop influenced the respondent’s decision to participate) were deleted.

Throughout the rest of this interview, the computer will ask you questions about three time periods, the past 30 days, the past 12 months, and your lifetime. To help you remember the first two time periods, let’s mark this calendar with the beginning dates for each one of them.

SHOW CALENDAR TO RESPONDENT.

Now let’s think about the past 30 days. According to the calendar [DATEFILL] was 30 days ago. I’ll call that your 30-day reference date, and I will write [DATEFILL] here on the calendar.

WRITE [DATEFILL] FOR 30-DAY REFERENCE DATE ON CALENDAR AND CIRCLE DAY; UNDERLINE ENTIRE 30-DAY PERIOD.

PRESS [ENTER] TO CONTINUE.

A number of questions will ask about the past 12 months, that is since this date last year. According to the calendar [DATEFILL] was 12 months ago. I’ll call that your 12-month reference date.

WRITE [DATEFILL] FOR 12 MONTH REFERENCE DATE ON CALENDAR, AND CIRCLE DAY ON CALENDAR.

PRESS [ENTER] TO CONTINUE.

Please use this calendar as we go through the interview to help you remember when different things happened. I will remind you to think about your 30-day reference date and your 12-month reference date when I ask you questions.

GIVE THE CALENDAR TO THE RESPONDENT. PRESS [ENTER] TO CONTINUE.
Beginning ACASI Section

IntroAcasi1 You will do an important part of this interview on your own, using the computer and headphones. Before you start, we’ll go through a short practice session so you can learn how to use this computer and our interview program. Let me quickly point out the keys you will use. The computerized practice session that follows will go through what each key does in greater detail.

MOVE COMPUTER SO RESPONDENT CAN SEE THE KEYBOARD AND POINT OUT THE FOLLOWING:

[POINT TO THE ROW OF FUNCTION KEYS] First, these are the function keys. The function keys and what they do are labeled for you.

[POINT TO F3] If you don’t know the answer to a question, press F3.

[POINT TO F4] If you don’t want to answer a question, press F4.

[POINT TO F7] If you want to turn the sound off, press F7. To turn it on again, press F7 again.

PRESS [ENTER] TO CONTINUE

IntroAcasi3 These next items will help you enter your answers into the computer.

[POINT TO THE ROW OF NUMBER KEYS] These are the number keys.

[POINT TO THE ENTER KEY] The Enter key is here, [POINT TO THE SPACE BAR] the space bar is here, [POINT TO THE BACKSPACE KEY] and the Backspace key is here.

[POINT TO THE BOTTOM OF THE SCREEN] The answers that you enter will show up here at the bottom of the screen.

PRESS [ENTER] TO CONTINUE

IntroAcasi4 There are a couple of computer features that you will not use.

[POINT TO ON/OFF SWITCH] This button up here turns the machine on and off. Please do not press it! It will turn the machine off, and we’ll lose the interview.

[POINT TO TOUCHPAD] Also, please do not touch this pad. This might disrupt the interview.

PRESS [ENTER] TO CONTINUE.

IntroAcasi2 Lastly, these headphones will allow you to listen to the interview questions.

HAND HEADPHONES TO RESPONDENT.

You can adjust the volume here [DEMONSTRATE VOLUME ADJUSTMENT ON THE HEADPHONE CORD].

Please put on your headphones. When you are ready, let me know.

MOVE COMPUTER SO RESPONDENT CAN USE IT. [BREAK]

ONCE RESPONDENT HAS HEADPHONES ON, PRESS “1” AND [ENTER] SO R CAN BEGIN PRACTICE SESSION.

HeadPhone This screen will play while you adjust the volume in your headphones. When you have adjusted the volume to a level that is comfortable to you, press the large [ENTER] key on the right side of the keyboard to continue with the practice session. The [ENTER] key is the one with the “~” symbol on it.
Tutorial

INTRO1 Welcome to RTI’s self-interviewing system, which lets you control the interview and answer in complete privacy. In this system, you can read the questions on the computer screen and hear them read through the headphones.

First, you will learn how to use the system and complete some practice questions. You will learn how to enter answers and how to back-up if you make a mistake and want to change an answer.

Press the large [ENTER] key on the right side of the keyboard to move to the next screen. The [ENTER] key is the one with the ‘5’ symbol on it.

INTRO2 In this system you can read the questions on the computer screen and hear them read through the headphones. If you would like to just see the questions on the screen, you can turn off the voice.

Press the large [ENTER] key on the right side of the keyboard to move to the next screen. The [ENTER] key is the one with the ‘5’ symbol on it.

GOTDOG You answer questions by putting in the number that is shown next to your answer. The numbers are located in the second row of the keyboard.

To answer a question, you first press the correct number and then press [ENTER].

Do you have a dog?
1 Yes
2 No
DK/REF

EYECOLOR The last question was a Yes-No question. Other questions will have more answers to choose from, and you will pick your answer from a list.

What color are your eyes? Put in the number that best fits you and press the [ENTER] key.

1 Blue
2 Brown
3 Gray
4 Green
5 Some other color
DK/REF

ALLAPPLY Some questions will let you choose more than one answer. For these questions, you will use the space bar to separate the answers you type in. Practice this now.

What kinds of music do you listen to?

To select more than one kind of music from the list, press the space bar between each number you type. When you have finished, press the [ENTER] key to go to the next question.

1 Classical
2 Country
3 Hip Hop
4 Jazz
5 Latin American/Spanish
6 Other Folk/Ethnic
7 Pop/Rock
8 Soul/R&B
9 Techno
DK/REF

NUMBER Other questions will ask you to type in a number instead of choosing a number from a list.

In the past 30 days, on how many days did you eat breakfast? Type in the number of days you ate breakfast and press [ENTER].

________________ [RANGE: 0 - 30]
STOPLIST
If you hear your answer before the end of the list, you can put in your answer while the list is being read. Practice this now. Remember to press [ENTER].

When do you want to interrupt this list?

1  First answer
2  Second answer
3  Third answer
4  Fourth answer

BACKUP
If you want to change or see your answer to a previous question, you can back up using the [F9] key. Each time you press the [F9] key, the computer will go back one question.

Press [ENTER] to continue.

DOAGAIN
You can tell the computer to repeat a question by pressing [F10]. Try this now.

How many times did you listen to this screen?

1  I have listened to this screen more than once.
2  I have only listened to this screen one time

rangeerr
For some questions, the computer can only accept certain answers. For example, in the question below, the only numbers the computer will accept are 1 for YES or 2 for NO.

If you try to enter some other number, an instruction box will appear. To correct your answer, you must press the [ENTER] key to make the box disappear. You can then answer the question again.

Try this with the question below. Type a 3 as your answer. Press the [ENTER] key to remove the instruction box, then type in a valid answer.

Do you have a cat?

1  Yes
2  No

INCONSIS
At times the computer may ask you to think again about one of your answers. Other times, it may think two of your answers disagree. It will ask you to tell which one is correct and then fix the wrong one.

Also, at certain times the computer will tell you to ask your interviewer to show you some pictures. At that time, be sure to ask for these pictures.

Press [ENTER] to continue.

ANYQUES
If you have any questions, ask your interviewer now. If not, press [ENTER] to begin.
Tobacco

LEADCIG These questions are about your use of tobacco products. This includes cigarettes, chewing tobacco, snuff, cigars, and pipe tobacco. The first questions are about cigarettes only.

These next questions are about your use of snuff, sometimes called dip.

Snuff is a finely ground form of tobacco that usually comes in a container called a tin. You can use snuff by placing a pinch or dip in your mouth between your lip and gum or between your cheek and gum. Snuff can also be inhaled through the nose. Snuff is sold in both loose form and in ready-to-use packets.

Inhalants

INHINTRO These next questions are about liquids, sprays, and gases that people sniff or inhale to get high or to make them feel good.

We are not interested in times when you inhaled a substance accidentally — such as when painting, cleaning an oven, or filling a car with gasoline. The questions use the word ‘inhalant’ to include all the things listed below, as well as any other substances that people sniff or inhale for kicks or to get high. Take a moment to look at the substances listed below so you know what kinds of liquids, sprays, and gases these questions are about.

Amyl nitrite, ‘poppers,’ locker room odorizers, or ‘rush’
Correction fluid, degreaser, or cleaning fluid
Gasoline or lighter fluid
Glue, shoe polish, or toluene
Halothane, ether, or other anesthetics
Lacquer thinner, or other paint solvents
Lighter gases, such as butane or propane
Nitrous oxide or ‘whippets’
Spray paints
Other aerosol sprays

Now we have some questions about drugs that people are supposed to take only if they have a prescription from a doctor.

We are only interested in your use of a drug if:

- the drug was **not** prescribed for you, or
- you took the drug only for the experience or feeling it caused.

Press [ENTER] to continue.
Pain Relievers

INTROPR1 These questions are about the use of pain relievers. We are not interested in your use of “over-the-counter” pain relievers such as aspirin, Tylenol, or Advil that can be bought in drug stores or grocery stores without a doctor’s prescription.

Ask your interviewer to show you Card A.

Press [ENTER] to continue.

INTROPR2 Card A shows pictures of some different kinds of prescription pain relievers and lists the names of some others. These pictures show only pills, but we are interested in your use of any form of prescription pain relievers that were not prescribed for you or that you took only for the experience or feeling they caused.

Please look at Card A carefully as you answer the next questions.

Press [ENTER] to continue.

PR01 Please look at the pain relievers shown in Box 1 above the red line on Card A.

INTROST1 These next questions ask about the use of drugs such as amphetamines that are known as stimulants, ‘uppers,’ or ‘speed.’ People sometimes take these drugs to lose weight, to stay awake, or for attention deficit disorders. We are not interested in the use of “over-the-counter” stimulants such as Dexatrim or No-Doz that can be bought in drug stores or grocery stores without a doctor’s prescription.

Ask your interviewer to show you Card C.

Press [ENTER] to continue.

INTROST2 Card C shows pictures of some different kinds of prescription stimulants and lists the names of some others. These pictures show only pills, but we are interested in your use of any form of prescription stimulants that were not prescribed for you or that you took only for the experience or feeling they caused.

Please look at Card C carefully as you answer the next questions.

Press [ENTER] to continue.

ST01 Please look at the stimulants shown in Box 1 above the red line on Card C.

Sedatives

INTROSV1 These next questions ask about the use of sedatives or barbiturates. These drugs are also called “downers” or “sleeping pills.” People take these drugs to help them relax or to help them sleep. We are not interested in the use of “over-the-counter” sedatives such as Sominex, Unisom, Nytol, or Benadryl that can be bought in drug stores or grocery stores without a doctor’s prescription.

Ask your interviewer to show you Card D.

Press [ENTER] to continue.

INTROSV2 Card D shows pictures of some different kinds of prescription sedatives and lists the names of some others. These pictures show only pills, but we are interested in your use of any prescription sedatives that were not prescribed for you, or that you took only for the experience or feeling they caused.

Please look at Card D carefully as you answer the next questions.

Press [ENTER] to continue.

SV01 Please look at the sedatives shown in Box 1 above the red line on Card D.
